Trade-marks Journal

2017-01-04 — Vol. 64 No. 3245

Canada

Trade-marks Journal

Vol. 64 No. 3245

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

CERTIFICATION MARK

MACH

Certification Mark Text

The certification mark, as used by individuals authorized by the certifier, certifies that the entity seeking certification (1) has participated in a development program entitled Initiative MACH, organized by the applicant, which consists of an audit concerning mastery of the business processes identified below (which may be changed occasionally), and the audit is conducted every 12 to 15 months. This audit seeks to outline a continuous improvement process over time by identifying performance gaps within the entity seeking certification to determine the measures to improve the skills and competitiveness of the entity seeking certification; and (2) corresponds to one of five levels of maturity on the Cadre d'excellence MACH, which is based on mastery of the following business processes (which may be changed ocasionally), divided into 3 axes: (a) leadership and governance: strategic positioning and planning, management and tracking system for organizational performance, project and risk management system, innovation, corporate social responsibility; (b) staff planning and development: human resources planning, staff recruitment, mobilization, and retention, staff training, evaluation of individual performance; (c) operations: supply chain management, customer management, production management, continuous improvement, engineering, methods and introduction of new products and programs, quality management. (3) Once the audit is completed, a grade of 1 to 5 is awarded according to the quality of the business process described more fully in the attached document entitled Sommaire du Cadre d'Excellence MACH. (1 being the weakest and 5 being the strongest). The applicant also attributes a mark per axe based on the average of grades granted for each of the business processes within that axe, and the overall grade corresponds to the weakest mark attributed for each axis.

GOODS

Class 07

(1) Machines and machine tools for the aeronautics and space industries, namely machines for manufacturing and repairing parts to be used it aeronautical and space propulsion systems, namely turbojet engines, ramjet engines, pulsejet engines, rocket propulsion engines; assembly lines for assembling parts for aircraft engines; industrial robots; hydrazine thrusters, bipropellant thrusters, power-augmented catalytic thrusters, ion thrusters, electric thrusters, and plasma thrusters for rockets; propulsion systems for aeronautical and space vehicles as well as their constituent parts and detached parts, namely engines, turbines, pumps, thrusters, reactors, nacelles, thrust reversers, engine air intakes, fan cases, exhaust cones; compressors for motor vehicles; heat exchangers; transmission and propulsion couplings and components; engines of all types for mobile and stationary installations, namely gas turbine engines, thermal engines, electrothermal engines, reactive engines, nuclear power engines, combined propulsion engines, rocket propulsion engines, cryogenic rocket engines, rocket engines for satellite launchers and for ballistic and tactical missiles; test benches for engines, turbines and other thrusters (machines) for aircraft, all of the aforesaid goods being used in and intended for the fields of aeronautics and space.

Class 09

(2) Scientific, optical, weighing, measuring, checking, and inspection apparatus and instruments, namely apparatus and instruments for checking and monitoring the functioning of aircraft engines and their constituent parts, namely apparatus enabling the visual checking of parts, namely scanners, chemical fume detectors, radiographic apparatus for industrial use for analyzing materials and metals, namely scanners, variable-angle image sensors, touchscreen displays, laser detectors, cameras, radiation detectors, camera adapters, camera batteries, digital cameras, camera memory cards, camera battery chargers, camera filters, packing for cameras cases, camera flashes, camera lenses, camera wipes, camera shutters, camera lens hoods, camera mounts, camera tripods, laser pointers, altimeters, anemometers, variometers, accelerometers, aerodynamic sensors, apparatus for detecting odours, namely olfactometers; electric and electronic apparatus and instruments, namely overhaul calculators, digital speed regulation and fuel flow calculators (FADEC), braking calculators, temperature calculators, pressure calculators, vibration analysis calculators, flight control calculators; electric, electronic, and magnetic sensors for pressure, speed, movement, temperature, position, vibration; electronic cards for parameter processing, namely reader cards for use with computers, enabling connection to a computer server

for information in the fields of aeronautics and space; integrated or non-integrated electronic systems and equipment for data acquisition and processing; calculation and operation computer software for the simulation, operation, and storage of test programs; monitoring systems composed of computer hardware and software for the evaluation security, and performance as well as maintenance and upkeep requirements of aircraft engines and their modules and parts; electric and electronic maintenance and checking materials and equipment, integrated into airplanes and engines, fixed onto test benches and portable, for ground interventions, for reading and interpreting data from calculators and sensors; data processing apparatus, namely computers; apparatus for the recording, transmission, reproduction of sound, images, and data, namely audio and video disc players, audio and video disc recorders, radios, audio and video receivers, audio and video cassette players/recorders, televisions; computer software, in particular computer software and programs providing information about aircraft engines, operation, maintenance, work, repair related to aircraft engines and their modules and parts; computer software for managing the functioning and the repair, overhaul, servicing, maintenance, and reconditioning operations performed on aircraft engines and their modules and parts; magnetic, optical, and digital recording media, namely cassettes, discs, video discs, computer discs, optical discs, DVDs, CDVs, laser discs, USB keys, all recorded with text data, sounds, and still and animated images, computer software, information related to the design, manufacture, maintenance, monitoring, and repair or aeronautical engines and their constituent parts; data banks, containing, in particular, information related to aircraft engines, their operation, the repair, servicing, upkeep, maintenance, and reconditioning of engines, modules and parts of aircraft engines; test benches for aircraft engines, turbines, and thrusters, all of the aforesaid goods being used in and intended for the fields of aeronautics and space.

Class 12

(3) All aeronautical, astronautical vehicles, namely aircraft and airplanes; detached parts and pieces for aeronautical vehicle cockpits; nacelles for engines, reactors and thrusters for aeronautical vehicles; space launchers, rockets for space use, space shuttles for use in space equipped with hypersonic means of propulsion; devices for friction, damping, engagement, and braking for air vehicles; propellant tanks, surface tension tanks for fuel.

SERVICES

Class 35

(1) Consulting services related to the organization, administrative and commercial management, and industrial operation of industrial and commercial businesses that own an aircraft fleet; consulting related to the management of engine fleets, systems, equipment, and parts for aircraft; consulting related to the administrative and commercial management and the methods used in the context of repairing, overhauling, servicing, standardizing, maintaining systems, equipment, and parts for aeronautical and space vehicles; consulting related to the identification and choice of tools in the fields of repairing, overhauling, servicing, standardizing, maintaining systems, equipment, and parts for aeronautical and space vehicles; administrative and commercial management of parts , replacement materials for users of aircraft engines, systems, equipment, and parts; market studies and research in the field of aeronautics; compilation and statistical study of data related to the management of a fleet comprising systems, equipment, and parts for vehicles aeronautical and space vehicles and to the management of the maintenance of an aircraft fleet; consulting services related to the organization and management of air operations; collection of data in a central file; management and compilation of databases; analysis, collection, systematization, management, processing, and storage of data; operation of statistical data, namely compilation of statistics; provision of statistical information in a computer database in the fields of aeronautics and space; provision services, namely establishment of statistical data related to the fields of aeronautics and

space, all of the aforesaid services being used in and intended for the fields of aeronautics and space; administrative and commercial management of parts, replacement materials for users of aircraft engines, systems, equipment, and parts.

Class 36

(2) Rental-purchasing (leasing) of systems, equipment, and parts for aeronautical and space vehicles; technical consulting, information, and assistance (consulting) services provided online 24/7 in relation to the rental-purchasing (leasing) 0f systems, equipment, and parts for aeronautical and space vehicles; insurance; financial and monetary affairs, namely financial valuations for insurance purposes, asset management; consulting, estimates, analysis, and expertise related to financial affairs, namely consulting and auditing related to risk management for airlines and aircraft operators; study and development of financial projects and provision of consulting and support in this field; consulting and auditing in relation to risk management and quality assurance for airlines and aircraft operators; financial engineering, preparation of files for financing purposes, and guidance related to financial projects; loans and financing for aircraft systems, equipment, and parts; financial services related to the rental of aircraft systems, equipment, and parts; insurance services for aircraft systems, equipment, and parts; warranty services for aircraft systems, equipment, and parts, all of the aforesaid services being intended for the fields of aeronautics and space.

Class 37

(3) Construction, installation, assembly, repair, and maintenance of aeronautical and astronautical vehicles, space launchers, aircraft and their constituent parts, namely propulsion systems for aeronautical vehicles, engines, thrusters, nacelles, thrust reversers; construction of industrial buildings and test benches for propulsion units, systems, namely rocket engines and aeronautical engines, equipment and parts for aeronautical and space vehicles and rocket engines; repair and reconditioning of aeronautical engines and space propulsion units; installation, assembly, repair, and maintenance services for aircraft apparatus, instruments, systems, material, and electric and electronic equipment; on-wing maintenance, repair, servicing, and upkeep services for all types of systems, namely propulsion systems for aeronautical vehicles, engines, thrusters, and thrust reversers, propulsion units, equipment and parts for aeronautical and space vehicles; standardization, reconditioning, and standard replacement for engines, propulsion units, systems, equipment, and parts for aeronautical and space vehicles; consulting related to the identification and choice of tools in the fields of repairing, overhauling, servicing, standardizing, maintaining systems, equipment, and parts for aeronautical and space vehicles; online assistance available 24/7 in relation to the repair, servicing, reconditioning, upkeep, maintenance, and standard replacement of engines, propulsion units, systems, equipment and parts for aeronautical and space vehicles; consulting and technical support services in relation to the maintenance, repair, servicing of aeronautical vehicles and their constituent parts, namely nacelles engines, reactors, thrusters, and thrust reversers; consulting services related to the repair, servicing, maintenance, standardization, on-wing maintenance of all types of motors, systems, equipment, and parts for aircraft.

Class 38

(4) Emission, transmission, and reception of information contained in a computer and electronic database and on a server via Internet and intranet access in relation to the functioning of the engine and the flight trajectory recorded by the modules and equipment of an airplane, namely instrument panels, flight recorders in the cockpit toward a computer database located on a server on the ground; provision of access to databases through a computer network in the fields of aeronautics and space; dissemination of information on networks, in particular on the Internet

through a computer database in the fields of aeronautics and space; secure communication services for data related to the evaluation of the security and performance, and the maintenance and upkeep requirements of aircraft engines and their modules and parts, all of the aforesaid services being used in and intended for the fields of aeronautics and space; secure communication services for flight data for aircraft through computers, through radio, and through radio transceiver apparatus.

Class 39

(5) Rental of all types of systems, equipment, and parts for aeronautical and space vehicles; secure storage of electronic data related to aircraft flights, all of the aforesaid services being used in and intended for the fields of aeronautics and space.

Class 40

(6) Material treatment, namely thermal treatment of metals and metal alloys; thermal treatment of metals and metal alloys; physico-chemical operation and treatment of anti-oxidizing and anti-corrosive protection of non-metal composite materials for aeronautical vehicles and their constituent parts, all of the aforesaid services being used in and intended for the fields of aeronautics and space.

Class 42

(7) Technical, scientific, and industrial research in the fields of aeronautics and space; mechanical engineering, aeronautical engineering; engineering work, namely research and development in the fields of aeronautics and space; engineering services related to evaluations, estimates, and research in relation to the technology used in aeronautical and space vehicle systems, equipment, and parts; consulting and professional advice related to engineering; engineering work, namely technical consulting in the field of aeronautics; operational engineering services for airlines; analysis and consulting provided by engineers in relation to aircraft fuel consumption and saving; technical consulting related to the methods to be applied in the commercial management and replacement of systems, equipment, and parts for aeronautical and space vehicles; technical consulting related to the methods to be applied in the context of the repairing, overhauling, servicing, standardizing, maintaining of propulsion units, systems, equipment, and parts for aeronautical and space vehicles; testing of machines and materials; inspection and monitoring services for aircraft engines, systems, equipment, and parts; computer software development and design, computer programming; analysis, expertise, and processing services for the acquisition of data recorded during test campaigns for aeronautical and space vehicle systems, equipment, and parts; acquisition and unloading of aircraft flight data; analysis, expertise, and processing services for the acquisition of data recorded on running aircraft engines, systems, equipment, and parts; maintenance of a web portal provided for airlines, operational engineering services for airlines; technical studies and projects related to aeronautical vehicles and their constituent parts, namely engines, engine nacelles, reactors, thrusters, and thrust reversers, aeronautical vehicles.

CLAIMS

Priority Filing Date: FRANCE October 27, 2014, Application No: 14/4129041 in association with the same kind of goods and in association with the same kind of services. Used in FRANCE on goods and on services. Registered in or for FRANCE on October 27, 2014 under No. 14/4129041 on goods and on services

RECUVANE

GOODS

(1) (1) (a) machines and equipment for solid-liquid separation via filtration and mechanical pressing , namely, belt presses; centrifugal decanters for draining, clarifying, separating, sorting of mixtures of multiple substances, including solid-liquid mixtures, liquid-liquid mixtures, solid-solid mixtures, solid-solid-liquid mixtures, solid-liquid-liquid mixtures; centrifugal separators; wastewater treatment machines; (b) electronic control units for centrifugal drive assemblies in centrifugal decanters and centrifugal separators; (c) conduits and steel and plastic pipes used for separating or clarifying machines; filtering units for use in filtering and removing the components in mixtures of solids and liquids, mixtures of solids, mixtures of liquids and for removing liquids from solids in suspensions

(2) conduits and steel and plastic pipes used for separating or clarifying machines; filtering units for use in filtering and removing the components in mixtures of solids and liquids, mixtures of solids, mixtures of liquids and for removing liquids from solids in suspensions

SERVICES

1) (a) building, installation, servicing, maintenance and repair of machinery and equipment used with clarifying machines and centrifugal separators; (b) development of new devices for use in separating or clarifying machines and systems, namely, machines and equipment for solid-liquid separation via filtration and mechanical pressing, namely, belt presses, centrifugal decanters for draining, clarifying, separating, sorting of mixtures of multiple substances, including solid-liquid mixtures, liquid-liquid mixtures, solid-solid mixtures, solid-solid-liquid mixtures, solid-liquid-liquid mixtures, centrifugal separators, waste-water treatment machines, electronic control units for centrifugal drive assemblies in centrifugal decanters and centrifugal separators, piping systems used for separating or clarifying machines, filtering units for use in filtering and removing the components in mixtures of solids and liquids, mixtures of solids, mixtures of liquids and for removing liquids from solids in suspensions; technological consultancy in the field of mechanical separation technology

TEISSEIRE I

Image Description (Vienna)
- Drops
- Letters or numerals representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object
- Letters or numerals representing a heavenly body or a natural phenomenon
- Puddles (of water)
- Ellipses
- One circle or ellipse
- Circles or ellipses containing representations of heavenly bodies or natural phenomena
- Circles or ellipses containing one or more letters
- Circles or ellipses with dark surfaces or parts of surfaces
- White, grey, silver
- Green
- Red, pink, orange

Colour Claim
Colour is claimed as a feature of the trade-mark. The word TEISSEIRE is written in white letters and is contained in a green oval; the lower part of this oval has an orange-green border consisting of a line of variable thickness; in the upper part of the oval are droplets of water of varying sizes

GOODS

Class 29

(1) Milk beverages [milk predominating]; yoghurt; drinking yoghurt; fruit preserved in alcohol; fruit peel; fruit pulp

Class 30

(2) Coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee; coffee, tea, chocolate beverages where caramel is predominant flavour and ingredient; non-alcoholic beverages and preparations for making beverages, namely herbal tea beverages; herbal based beverages; flour and preparations made from cereals, namely breakfast cereals, cereal-based bars, cereal-based snack food, bread, pastry and confectionery, namely, sugar, chocolate, ice and flour confectionery, namely pastries, cakes, cookies, muffins; ices; honey, treacle; yeast, baking-powder; salt, mustard; vinegar, sauces (condiments), namely fish sauce, hot sauce, chocolate sauce, fruit sauce, ketchup sauce, soy sauce; spices; flavouring syrups to add to beverages; flavouring syrups to add to food or to use in conjunction with food; ice; sandwiches; prepared meals; pizzas, pies and pasta dishes; ice creams; sorbets; frozen ice products, namely frozen confectionery, frozen desserts, frozen flavoured waters, ice-cream, ice cream bars, ice cream cones, ice cream gateaux, ice cubes; iced lollies; chocolate; chocolate bars; chocolate eggs; Christmas tree decorations [edible]; sweets (candy)

(3) Frozen yoghurt (confectionery ices)

(4) Flavouring syrups to add to food or to use in conjunction with food

Class 32

(5) Non-alcoholic beverages and preparations for making beverages, namely mineral and aerated waters, isotonic beverages; waters; flavoured waters; vegetable juices (beverages); fruit beverages (non-alcoholic); fruit drinks and fruit juices; fruit flavoured drinks; fruit based beverages; fruit nectars ; frozen fruit beverages; energy drinks; apéritifs, non-alcoholic; non-alcoholic cocktails; cordials (non-alcoholic beverages); squashes (non-alcoholic beverages); dilutable preparations for beverages, namely squashes, cordials, syrups and concentrates; carbonated non-alcoholic drinks; syrups and concentrates for beverages; slush drinks; tablets, powders, pastilles, granules and soluble crystals for making effervescent non-alcoholic drinks; sodas; sherbets (beverages); preparations for making beverages, namely syrups and concentrates

(6) Preparations for making beverages, namely natural fruit extracts and fruit concentrates; lemonades

GOODS

Downloadable software application for wireless mobile devices for on-line financial transactions, namely, electronic fund transfers, bill payment, check deposits, card transactions, managing financial accounts, locating nearby atms, obtaining financial data and reports, connecting users to customer service and blocking use by others of the user's credit and debit cards.

SERVICES

Customer service, namely, responding to customer inquiries for others in the field of online financial transactions, namely, debit and credit card transactions, online bill payment financial transactions, electronic funds transfers and money account balances; providing lead generation activities and services for financial services providers; providing an on-line computer web site that provides information on online financial transactions namely, debit and credit card transactions, online bill payment financial transactions, electronic funds transfers and money account balances; financing services, namely, financing of purchases, financing of loans, project financing; financial services provided by mobile telephone connections, namely, bill payment services; credit card and debit card services; electronic funds transfer; loan services; providing web-based personal financial management services, namely, management of financial accounts including monitoring of transactions, account balances, and budget and spending reporting; providing an on-line computer web site that provides financial reporting and related reference information in the field of retail finance; application service provider featuring application programming interface (API) software for allowing financial electronic fund transfer, debit and credit card transactions and data, bill payment and money account data retrieval, upload, access and management; application service provider (ASP) featuring software for use in online financial services, namely, online bill payment financial transactions, debit and credit card transactions and data electronic funds transfers, budget and spending reporting and financial analysis; computer services, namely, creating an on-line community for registered users to participate in discussions, share financial transaction information and financial services information, and engage in social networking in the fields of personal finance management.

TRADEMARK

Image Description (Vienna)

- Rhombs or squares standing on one of the corners thereof
- Several quadrilaterals juxtaposed, joined or intersecting
- Quadrilaterals containing one or more circles, ellipses or polygons
- Surfaces or backgrounds covered with repeated geometrical figures or designs
- Surfaces or backgrounds covered with circles or ellipses
- Blue
- Green
- White, grey, silver

Colour Claim

Colour is claimed as a feature of the trade-mark. The color(s) blue, green and white is/are claimed as a feature of the mark. The mark consists of three square designs appearing in a stacked fashion with the top square in the color navy blue, the middle square in the color green, and the bottom square in the color blue, with the top square comprising 9 circles with all of the circles appearing in the color white except for the top left circle, which appears in the color green.

GOODS

Computer software for managing and sharing data and information in the fields of medical clinical trials and medical research, for designing, managing, and executing medical clinical trials and medical research and medical clinical trial and medical research protocols, for forecasting and benchmarking budgets and costs in medical clinical trials and medical research, for medical coding in medical clinical trials and medical research, for the collection of information and data in medical clinical trials and medical research, for evaluating and measuring the performance and results of medical clinical trials and medical research, for managing, organizing and reporting the results of medical clinical trials and medical research, for monitoring and events capture in the nature of gathering and organizing information and data generated in medical clinical trials and medical research, for medical clinical trial and medial research user and learning management, for medical clinical trial and medical research operational reporting and analytics, and for medical clinical trial and medical research patient randomization and supply management; downloadable software in the nature of a mobile application for use in managing data and information in the field of medical clinical trials and research; downloadable software in the nature of a mobile application for use in medical clinical trials, research monitoring and events capture in the nature of gathering and organizing information and data generated in medical clinical trials and research

SERVICES

Software as a service (saas) solutions featuring software for managing and sharing data and information in the fields of medical clinical trials and medical research, for designing, managing, and executing medical clinical trials and medical research and medical clinical trial and medical research protocols, for forecasting and benchmarking budgets and costs in medical clinical trials and medical research, for medical coding in medical clinical trials and medical research, for the collection of information and data in medical clinical trials and medical research, for evaluating and measuring the performance and results of medical clinical trials and medical research, for managing, organizing and reporting the results of medical clinical trials and medical research, for monitoring and events capture in the nature of gathering and organizing information and data generated in medical clinical trials and medical research, for medical clinical trial and medial research user and learning management, for medical clinical trial and medical research operational reporting and analytics, and for medical clinical trial and medical research patient randomization and supply management; Providing temporary use of online non-downloadable computer software for managing and sharing data and information in the fields of medical clinical trials and medical research, for designing, managing, and executing medical clinical trials and medical research and medical clinical trial and medical research protocols, for forecasting and benchmarking budgets and costs in medical clinical trials and medical research, for medical coding in medical clinical trials and medical research, for the collection of information and data in medical clinical trials and medical research, for evaluating and measuring the performance and results of medical clinical trials and medical research, for managing, organizing and reporting the results of medical clinical trials and medical research, for monitoring and events capture in the nature of gathering and organizing information and data generated in medical clinical trials and medical research, for medical clinical trial and medical research user and learning management, for medical clinical trial and medical research operational reporting and analytics, and for medical clinical trial and medical research patient randomization and supply management

Image Description (Vienna)

- Household utensils not classified in divisions 11.1 or 11.3
- Brushes, sponges, steel wool – Note: Not including brushes for toilet purposes (10.5.1 and 10.5.25).
- Black
- Red, pink, orange
- White, grey, silver

Trademark Description

The trademark consists of the colours red, grey and black as applied to the particular retractable car snow brush shown in the drawing. The drawing depicts three perspectives of the same trademark. The head of the brush, shown on the left side of the drawing, is composed of two layers. The outer-most layer is dark grey. The inner layer is black. At the center of the inner layer is a piece of plastic, in red. On top of the red plastic is a black mechanism which connects the head to the shaft of the snowbrush. At the bottom of the shaft is a piece of red plastic. The shaft is light grey. The grip at the center of the shaft is black with red stripes. The scraper head at the end of the snowbrush, shown on the right of the drawing, is black.

THE BBALBONG MA-UM-EUL PA-NEUN BUN-SIK-JIB BBAL-BONG-BUN-SIK

Image Description (Vienna)
- Squares
- One quadrilateral
- Quadrilaterals containing other inscriptions
- Quadrilaterals with dark surfaces or parts of surfaces
- Inscriptions in other characters

Foreign Character Translation/Transliteration
As per the Applicant, the Korean characters appearing in the upper left hand side of the design transliterate to 'ma-um-eul pa-neun bun-sik-jib' and translate into English as 'the snack house selling heart'. The Korean characters appearing above the term THE BBALBONG transliterate to ' bbal-bong-bun-sik'. The Korean character for 'bbal-bong' has no meaning in the English language. The Korean character for 'bun-sik' translates into English as 'flour based food'.

GOODS

Common metals and their alloys, namely, cast iron, steel, copper ingots, aluminum ingots, iron alloys, steel alloys, copper alloys, and aluminum alloys; metal building materials, namely, structural steels, sheet piling, sectional beams and pipes made of metal; non-electric cables and wires of common metal for use in industry; pipes and tubes of metal for conveying gases, liquids and solids; machines for the treatment, processing, and production of metals and plastics, namely, milling machines and grinding machines, and machines utilizing rotational motion for high energy surface finishing and material treatment, namely, heavy, medium and light section rolling mills, cold and hot mills, strip and wide strip mills, plate and sheet mills, blooming, slabbing and billet mills, universal mills, planetary mills, multi-purpose cold mills, rod, bar and tube mills, continuous mills, reversing mills, pilgrim mills, detaching mills and mills for the rolling of steel, iron, aluminum and copper or for the rolling of alloys of the same, and replacement parts for the aforementioned rolling mills; rolling mills for wire, steel rod rolling mills, bloom rolling mills, rail rolling mills, and section rolling mills, drawing machines, wire ring presses, reeling machines; machines for manufacturing, processing and working seamless and welded pipes, namely, pipe expanding machines, large pipe manufacturing machines, hot and cold pipe rolling mills, presses, namely, extrusion presses, impact extrusion, cold extrusion and back-flow extrusion presses, cable sheathing presses, straightening and bending presses, plate shaping presses, deep-drawing presses, multi-stage presses, hydraulic metal powder presses, and replacement parts therefore; forging machines, namely, open-die forging machines, automatic forging hammers, forging presses, piercing presses and counter blow hammers, and replacement parts for the aforementioned forging machines; casting machines, namely, continuous steel slab casting machines and machines for the continuous casting of metals, plastic extrusion and plastic molding machines, and replacement parts for the aforementioned casting machines; electric power generators for rolling, pressing, forging and casting installations; hydraulic driving machines for rolling, pressing, forging and casting installations; supporting chain conveyors and hoists, roller tables, tilters, scale washers, and roller cleaning machines; conveyors for the conveying of rolled, pressed, forged and cast articles to and from rolling, pressing, forging and casting installations; welding machines, namely, pipe welding machines, butt-welding machines, cutting machines, namely, pipe blades, flame cutting machines; machines for filling and emptying blast furnaces; machines for tilting, pivoting and moving convertors and ladles used for casting installations; machines for the chemical industry, namely, chemical fiber drying machines, extracting machines for chemical processing; machines for agriculture, namely, combines, harvesters, threshers, and tillers; machines for mining, namely, excavators, cutters, earth and burden movers, loaders, cutters and conveyors; mining shafts, hoists , skips, windlasses; inclined conveyors, winding engines, winding towers, head frames, conveyor buckets, conveyor belts, mine car fillers and unloading machines; hydraulic and pneumatic conveyors; pipeline conveyors; waste disposal comminuters, conveyors, loaders for loading containers with radioactive waste, transporters for radioactive waste containers; metal coil handlers , metal coil winders, metal coil conveyors; metal coil packagers, metal coil stackers; cranes, hoists and clamps being parts therefore; machine tools for the steel mill industry, namely grinding machines; rolling mill roll replacement machines; motors and engines (except for land vehicles), namely, electric motors or electric gear motors for machines; machine coupling and transmission components, namely, hydraulic and mechanical transmissions for machinery and replacement parts therefore; weighing, measuring, signalling, and checking apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electric luminescent display panels, light emitting diode displays, liquid crystal displays, strip tension dynamometers, strip tensioning laboratory blades, strip flatness meters, thermometers, speedometers, pressure gauges, angle gauges, distance meters, roughness gauges, electric and electronic control devices, namely, flatness control, roughness control, pressure control and tensioning control for influencing the properties of rolled steel; control panels for rolling mills, electrical and magnetic detectors for monitoring the properties of rolled steel; frequency meters; apparatus for recoding, transmission or reproduction of sound or images, namely, video transmitters; calculators; computers for use in operating and controlling operations of metallurgical plants and rolling mills; data carriers, namely CDs, DVDs and USB sticks containing software for regulating or controlling rolling, pressing, forging and casting installations; computers featuring programs for controlling rolling mills, furnace plants, continuous casting machines; computer programs for controlling and regulating machines for the metallurgical industry, machines for the steel industry, continuous casting machines, rolling machines, forging machines, pressing machines and machines for processing synthetic materials; apparatus for heating, steam generating, cooking, refrigerating, drying, ventilating, and water supply purposes, namely, furnaces for metallurgical plants, steel mills, continuous casting plants, forging and pressing plants; cooling systems comprised of industrial water recirculation cooling and heating systems for rolling, pressing , forging and casting installations, comprising heat insulation, water roll coolers, strip preheaters, spray water cooling sections sprayers, furnaces, cooling towers, cooling fans, scarfing and flame cutting, slab cooling wheels for pressing, forging and casting installations; coolant purifying devices, water neutralization plants, water separators, washing brushing machines and filters for rolling, pressing, forging and casting installations for machines for the metallurgical industry, machines for the steel mill industry, namely, continuous casting machines, rolling machines for the rolling of metals, forging machines, namely, pressing machines for metals; apparatus for heating, namely, electric heaters for rolling, pressing, forging and casting installations, heat sinks, electric heating panels for rolling, pressing, forging and casting installations; heaters and furnaces for rolling stock, namely, metal products subject to rolling in a rolling mill and for continuous casting plants; steam generators; refrigerated merchandise display cases, cooling apparatuses for rolling stock, rolling mills and continuous casting machines, namely, water sprayers, air coolers; drying, ventilating fans and louvers and cooling water circuit installations; air coolers for metallurgical plants, steel mills, continuous casting plants, rolling mills, and forging and pressing plants; smelters; filters for rolling, pressing, forging, and casting installations.

SERVICES

Business management consultancy; business administration; installation, assembly, repair and maintenance of industrial and machinery systems, namely, machines for the metallurgical industry, machines for the steel industry, continuous casting machines, rolling machines for the rolling of metals, forging machines, presses for metals, machines for the working and processing of plastics, machine tools, engines and motors, except engines for land vehicles, clutches and couplings and devices for power transfer, except for land vehicles; treatment of materials, namely, metal treating, rolling, squeezing, forging, grinding, molding, swaging, tempering, casting, milling, planing, coating, cutting, drilling, turning, honing, surface refining, lining and plating of metals; scientific and technological services and research and design in the field of construction and operation of metallurgical plants, steel mills, rolling mills; design and development of computers and computer software for others; technical consulting in the field of the operation of machines for the metallurgical industry, machines for the steel mill industry, continuous casting plants, rolling machines, forging machines, pressing machines, consultancy services for the metallurgical industry , machines for the steel mill industry, continuous casting plants, rolling machines, forging machines, pressing machines.

Trademark Description

Bonslocataires. Com is the first Internet site dedicated entirely to rentals that truly meets the needs of real estate landlords, tenants, and managers in Quebec and Canada. Our first goal is to connect landlords and tenants by providing a complete support service in the residential leasing sector. (real estate brokerage in compliance with OACIQ for renting, selling, buying, managing real estate.) our services for landlords : access to a bank of pre-qualified good tenants. Rental price recommendations. Photo shoots of the housing unit, building, and sector. Complete reports on all potential tenants. Visibility of the housing unit on several Internet sites. Presence of broker or landlord or superintendent during visits. Buying and filling out Régie du logement lease forms, regulations, annexes, etc. Services for renters : wide selection of good housing units on our site. Qualification and approval as a good tenant. Our presence during visits to the premises. Presentation of your file to future landlords. Our presence when meeting your future landlord.

Completely filling out the lease, regulations, annexes, our presence when signing the lease. All of the documents will be prepared according to rental rules. Our rental services, the most complete on the market, will allow for better mutual starts as well as peace of mind in landlord-tenant relations.
